

Parts of Carroll County are served by libraries through direct property tax support, and one town and township (Burlington) support a library through indirect tax support. Several townships in the county do not have tax-supported library service, but they can purchase library cards from the three public libraries. The [Library District Map](#) shows areas served through direct tax support.

The libraries offer books and other media for lending and reference, Internet access, and various programs that are detailed at their websites and in a weekly column in the [Carroll County Comet](#)

. All the libraries offer meeting rooms as well.

[Burlington Community Library](#) is located 101 West 7th Street in Burlington, at the junction of State Roads 29 and 22. The phone number is 765-566-3166. The library does not receive a direct tax levy but is supported by funding from both the town and township. Membership at the Burlington Community Library is open to those living in Burlington Township as well as those living in and around Cutler, Deer Creek, Carrollton, and Bringhurst. There are no membership fees.
